

Krogen 58' Extended Bridge

The Krogen 58' EB (Extended Bridge) is a new 2016 luxury motoryacht model from Kadey-Krogen Yachts aimed to cruise the distance in class. The 58' EB, an evolution from the popular Krogen 58' line, has emphasis on livability and outdoor accommodations that make her an entertainment platform to remember.

The enlarged flybridge with seating for eight to ten people around two teak tables is a statement right out the gate. An outdoor summer kitchen includes a propane BBQ grill, refrigerator, wet bar, and additional storage.

What's more, a Steelhead davit system is positioned aft on the flybridge for tender deployment. The generous deck space forward also has generous seating. Of course, the interior features gorgeous wood detailing, a fully loaded galley with granite countertop, and more. The 58' EB has "home away from home" written all over her.

The 58' EB also has two wing stations with engine and thruster controls to make docking and tight maneuvers easier than ever before. New options include a pilot berth and day head in the

pilothouse for the truly devoted skippers among us. Interior access to the flybridge and a newly designed hardtop with electronic mast are also options to con-

sider. She's your boat, have her your way. If you're interested in calling the 58' EB your own, contact Kadey-Krogen Yachts for pricing and options.
